Profile

I am currently in my fourth year of graduation at Vasavi College of Engineering in the field of Information Technology and am actively seeking opportunities to contribute my skills, knowledge and enthusiasm to a dynamic workplace. Eager to embark on a fulfilling career in software development, I bring a fresh perspective and a strong desire to make meaningful contributions to innovative projects.

Education

BE-BTECH/INFORMATION TECHNOLOGY , VASAVI COLLEGE OF ENGINEERING CGPA: 7.75	10/2023 – 04/2026 Hyderabad, India
Diploma , T.R.R. College of Technology Percentage: 7.8	06/2020 – 05/2023 Hyderabad, India

Skills

Languages

- C, Python, Java, SQL, JavaScript

Front-End

HTML, CSS, JavaScript, React

Back-End

Node.js

Clouds and Databases

MySQL

Projects

Face Recognition Surveillance

- *Tech Stack*: Python, OpenCV, Deep Learning (CNN/Siamese Networks), CCTV Integration
- A deep learning-based surveillance system designed to **locate missing persons using CCTV footage**.
- Captures and processes **video frames in real-time**, comparing them with the **uploaded reference image**.
- Utilizes a **trained face recognition model** (e.g., Siamese neural network) to identify matches within live or recorded feeds.

EV Trip Planner

- *Tech Stack*: Node.js, Express.js, React, MongoDB, Google Maps API
- Optimizes long-distance EV travel by suggesting charging stops and estimating total trip cost and time.
- Provides an **interactive map for route planning**, helping users select the best charging stations.
- Improves convenience for EV users by **reducing trip planning time**.

Certificates

- The Joy of Computing using Python-(NPTEL,2023)
- AWSAcademy Graduate– Machine Learning Foundations (AWS Academy, 2024)
