ABOUT ME

Fourth year undergraduate Computer Science student with a strong foundation in programming, theoretical concepts, and problem-solving. Passionate about solving real-world problems through technology.

OBJECTIVE

Looking for an internship where I can use my passion and knowledge in technology to work on real-world projects. I aim to improve my skills while contributing positively to the team and organization.

EDUCATION

Vasavi College of Engineering

B.Tech - Computer Science Engineering

June 2026

Hyderabad, Telangana

TSSWRES Kondamallepally

Intermediate - MPC

2020 – 2022

Hyderabad, Telangana

TSSWRES Kondamallepally

10th

2019 – 2020

Hyderabad, Telangana

PROJECTS

Earthquake prediction Model | Python, Machine Learning, Flask, HTML/CSS

2024

- Developed a machine learning-based system to analyze seismic data and predict potential earthquake occurrences.
- Data Processing:** Collected and preprocessed historical earthquake datasets for accurate model training.
- Model Implementation:** Applied classification algorithms to identify patterns and predict earthquake probabilities.
- Web Integration:** Built a Flask-based web application to display predictions in a user-friendly interface.
- Visualization:** Provided graphical insights for better understanding of seismic activity trends.

MoonFlix | JavaScript, React, Node.js, MongoDB

2023

- Developed a full-stack video streaming web application similar to Netflix for browsing and watching movies and shows.
- User Authentication:** Implemented secure login and signup functionality for personalized user experience.
- Content Browsing and Video Streaming:** Designed dynamic UI with categories, search, and recommendations for easy content discovery, functionality for smooth playback of video content.
- Backend & Design:** Built REST APIs using Node.js and stored user and content data in MongoDB.
- Responsive Design:** Created an interactive and mobile-friendly interface using React.js and Node.js.

TECHNICAL SKILLS

Languages: C, Python, Java

Web Technologies: HTML, CSS, JavaScript

Core Software: Data Structures and Algorithms, OOPS Concepts, OS, DBMS, CN

Database: SQLite

CERTIFICATIONS

- Achieved “The Joy of Computing Using Python” - **NPTEL**
- Completed infosys certification in programming using AI fundamentals.
