Summary

Final-year Information Technology student with strong skills in frontend development using JavaScript and modern web technologies. Experienced in building real-world applications integrating AI and full-stack systems. Passionate about creating scalable, user-friendly applications and continuously improving problem-solving skills through hands-on projects.

Projects

AI Interview Prep Dashboard

- Built full-stack AI application using React.js and Node.js to generate resume-based interview questions.
- Implemented Technical, HR, and Project-based categories for structured preparation.
- Integrated voice recording using Web Speech API for real-time interaction.
- Developed AI evaluation system to score answers and provide feedback.

AI Voice Application

- Developed AI voice cloning and lip-sync system using XTTS and SAD-Talker.
- Generated realistic speech synchronized with facial animations.
- Built pipeline for high-quality text-to-speech conversion.

Credit Card Fraud Detection

- Built ML models using Python and Scikit-learn for fraud detection.
- Applied SMOTE to handle imbalanced datasets.
- Evaluated using precision, recall, and F1-score.

Employee Management System

- Developed CRUD web application using HTML, CSS, JavaScript, PHP, and MySQL.
- Implemented add, update, delete, and search functionalities.
- Ensured efficient data handling and clean UI.

Education

B.E. Information Technology

2023 – 2026

Vasavi College of Engineering

Diploma Computer Engineering

2020 – 2023

Kamala Nehru Polytechnic for Women

Skills

Technical Skills:

Languages: Python, Java, C, JavaScript, HTML/CSS

Databases: MySQL

Technologies: React.js, Node.js, REST APIs, Machine Learning

Tools: Git, VS Code, Jupyter Notebook, Google Colab

Soft Skills: Problem Solving, Communication, Teamwork, Adaptability

Certifications

- NPTEL – Programming in Python, Java
- Google Cloud – Cloud Digital Leader (Career Launchpad Track)
- Cisco – Networking, Python Essentials, Cybersecurity
- Simplilearn SkillUp – Basics of Data Structures and Algorithms
- AWS Academy – Machine Learning Foundations
- Microsoft – DNS Seminar (Internet Society Hyderabad)
- HackerRank – Problem Solving (Basic)
- Alison – Artificial Intelligence for Beginners
- Delightech – 6-Month Industrial Training Program
