CAREER OBJECTIVE

Final-year Computer Science Engineering student with hands-on experience in full-stack development, AWS cloud services, and applied machine learning. Skilled in building scalable web applications using the MERN stack and designing data-driven solutions.

EDUCATION

GMR Institute of Technology (CSE) | BTech | Rajam.
Sasi Junior College (MPC) | Intermediate | Tanuku.
Red Rose High School |Class 10| Peravali.

GPA:8.7	April 2026
GPA:9.7	May 2022
GPA:9.5	March 2020

INTERNSHIP EXPERIENCE

AWS Intern (AWS Practitioner)

July 2025 – October 2025

Lomaa IT Solutions, Visakhapatnam(India)

- Worked with core AWS services including EC2, S3, IAM, and VPC for deployment and management of cloud applications.
- Configured secure network environments using subnets, route tables, and Internet Gateways.
- Gained hands-on experience in scalable cloud architecture, auto-scaling, and load balancing

SKILLS

- Languages : Java and Python.
- Full Stack and Machine Learning : HTML, CSS, Javascript. ReactJs, NodeJs, ExpressJs and Machine Learning.
- DatabaseTechnologies : SQL and MongoDB.
- Tools : Git, Github and AWS.

CERTIFICATIONS

- Machine Learning – Udemy
- SQL – Hackerrank
- Java – L&T LearnKonnnect

PROJECTS

Habit Tracker Web Application.

Tech Stack: React, CSS, JavaScript, Node.js, Express.js, MongoDB, REST APIs, JWT Authentication.

- Designed and developed a responsive habit-tracking interface using ReactJs and Tailwind CSS, featuring streak tracking, calendar visualization, and an intuitive user experience.
- Built and structured the backend with Node.js, Express.js, and MongoDB, including authentication, CRUD functionality, and modular controllers, routes, and middleware.
- Integrated the frontend and backend through RESTful APIs, enabling seamless data flow, real-time habit updates, and persistent user progress storage.

Classification of Polyps using DeepLearning Techniques.

Tech Stack: Python, CNN, Transferlearning and MambaVision

- Developed a deep learning model in Python for colorectal polyp classification using CNNs, transfer learning, and Vision Mamba.
- Achieved high performance metrics, including accuracy, precision, recall, and F1-score. Integrated Vision Mamba to enhance model performance and feature extraction.
- Integrated Vision Mamba to enhance model performance and feature extraction.

ACHIEVEMENTS

- NCC C-certificate with an A Grade.
- Secured an All India Rank of 20,298 out of 4 lakh candidates in AINCAT (All India National Common Aptitude Test) conducted by Naukri.
