

BHIMUNI HARSHA VARDHAN

+91 78421 42459 harshabhimuni@gmail.com <https://www.linkedin.com/in/harsha-bhimuni-6a1474289>

Objective

Motivated and detail-oriented Information Technology student with hands-on experience in cloud computing, web development, and cybersecurity. Skilled in AWS services (EC2, S3, IAM, VPC), MERN stack development, and secure application design. Seeking an entry-level position where I can leverage my technical skills, internship experience, and problem-solving abilities to contribute to scalable and secure software solutions while continuously learning and growing in a dynamic organization

Education

GMR Institute of Technology (JNTU-GV) <i>Bachelor of Technology in Information Technology, secured an aggregate of 7.3 CGPA</i>	2022 – 2026 <i>Rajam, Andhra Pradesh</i>
Sri Chaitanya Junior College <i>Board of Intermediate Education Andhra Pradesh, secured an aggregate of 66.6%</i>	2020 – 2022 <i>Srikakulam, Andhra Pradesh</i>
Twinkle Kids School <i>Board of Secondary Education Andhra Pradesh, secured an aggregate of 98%</i>	2019 – 2020 <i>Srikakulam, Andhra Pradesh</i>

Experience

Internship at HashTek Solutions <i>Visakhapatnam</i>	July 2025 – October 2025 <i>OFFLINE</i>
- Worked with AWS services including EC2, S3, IAM, and VPC for deployment and infrastructure management. - Gained experience in cloud security, monitoring, and resource optimization.	
Internship at Krify Software Technologies Pvt. Ltd <i>Kakinada</i>	June 2024 — July 2024 <i>OFFLINE</i>
- Worked as a Software Trainee Intern in Cyber Security (Web Technologies), gaining hands-on experience in identifying and analyzing web vulnerabilities. - Assisted in performing basic vulnerability assessments and testing techniques to identify issues.	

Projects

BookWorm – Library Management System
- Developed a scalable library management system for efficient book issuing, user management, and real-time tracking of records, improving overall system usability and organization. - Deployed the application on AWS using EC2, VPC, Load Balancer, and Auto Scaling to ensure high availability, reliability, and optimized resource utilization.
AgriConnect
- Built a MERN stack application to connect farmers directly with consumers, enabling seamless product listing, communication, and improved accessibility to markets. - Implemented authentication using JWT and session cookiesImplemented secure authentication using JWT and session cookies to ensure data protection, user session management, and controlled access to application features.

Technical Skills

Programming: Core Java, HTML, CSS, SQL
Web: React.js, Node.js, Express.js, REST APIs
Cloud: AWS (EC2, VPC, S3, IAM, Load Balancer, Auto Scaling), Terraform

Certifications

- AWS Cloud Quest:(Cloud Practitioner)–Gained hands-on knowledge of core AWS services, cloud architecture, and best practices (Completed July 2025) .
- Core Java (Coursera) – OOP principles and fundamentals.
- Data Privacy Fundamentals – IBM SkillsBuild (Feb 2026)-Gained knowledge of data protection principles, privacy regulations, and techniques for securing sensitive information in digital systems.
