EDUCATION

GMR Institute of Technology

B.Tech in Information Technology, **CGPA: 6.8**

2024 – 2026

Rajam, Andhra Pradesh

Sri Chaitanaya Junior College

Board of Intermediate, **Percentage: 66.6%**

2020 – 2022

Vishakapatnam, Andhra Pradesh

EXPERIENCE

Internship

Jun 2024 - July 2024

Data Valley-Vishakapatnam

Python Full Stack

- Developed a social media module with user authentication, post creation, likes, and real-time notifications using Django REST Framework and React.
- Implemented WebRTC and Django Channels with Socket.io for real-time video calling, whiteboarding, and screen sharing, improving collaboration efficiency by 40%.
- Optimized backend APIs and database queries in PostgreSQL, reducing response time by 30% and enhancing user experience.
- Deployed applications on AWS using Docker and CI/CD pipelines, ensuring scalability, security, and 99.9% uptime.

PROJECTS

A Pet Adaption Portal Care

| MERN Stack, Tailwind CSS, REST API

Mar 2025

- Designed and developed a Pet Adoption Portal using the MERN stack (MongoDB, Express.js, React, Node.js) to connect adopters with pet care organizations.
- Implemented secure user authentication, pet listing management, and adoption request workflows, ensuring a smooth user experience.
- Integrated real-time chat and notifications using Socket.io, enabling direct communication between adopters and pet care centers.
- Deployed the application on cloud platforms with responsive UI, achieving cross-device compatibility and scalable performance.

Full Stack AI Course Generator

| Next.js, React, Tailwind CSS, AI APIs

Nov 2024

- Built an AI-powered **course generator** integrating Gemini API for dynamic content creation and YouTube API for automatic video chapter generation.
- Developed a **responsive frontend** with Next.js, React, and TailwindCSS, ensuring seamless navigation and real-time feedback.
- Implemented **secure user authentication** and personalized dashboards with Clerk, enabling protected and role-based access.

SKILLS

Programming Languages: C,Java,Python,HTML, CSS

Frameworks & Libraries: ReactJS **Tools &**

Platforms:Git, GitHub

Concepts: Data Structures & Algorithms, Web Development,DBMS, OOP.

CERTIFICATIONS

C- language, ms office, intern certificate on full stack.

Core Java – Coursera

Full Stack Developer -GeeksForGeeks

ACHIEVEMENTS

- Organized and conducted a non-technical event at Stepcone 2025, enhancing leadership, coordination, and event management skills.
